Our Purpose

The Business Living Learning Community (BLLC) consists of male and female first-year students each who are engaged in the first-year curriculum of the Walton College of Business and several co-curricular activities. This type of community provides a close working relationship among students and faculty through one to two structured academic and social events per month. This involvement will not exceed six hours per month. Students in the Living Learning Community are likely to get together often for studying, reviewing, and discussing course work in the residence hall. While the BLLC is open to any freshman business student, those who plan to participate in Greek Life may find it difficult to manage the time commitments of both programs.
