

Engineering *Living Learning Community*

In partnership with the Freshman Engineering Program.

Choose this LLC if...

- You are a first year student majoring in engineering.
- You want to live in the same residence hall and form study groups with other first year engineering majors.
- You want to participate in extracurricular activities that connect learning in and out of the classroom.
- You want to experience career exploration with faculty, students, and advisors.

Freshman Engineering
Program

Our Purpose

As a member of the Engineering Living Learning Community (ELLC) you will have the unique opportunity to engage with peers and faculty members from the College of Engineering to help enhance your academic performance during your first year at the University of Arkansas. Students in the ELLC are likely to get together often for studying, reviewing, and discussing course work in the residence hall. The ELLC offers initiatives such as study sessions, informal interactions with faculty and staff, guest speakers on various engineering related topics, and much more.

Benefits

Benefits of participating in this LLC include:

Getting to know faculty and staff in a small setting.

Creating connections right away with peers who share the same major.

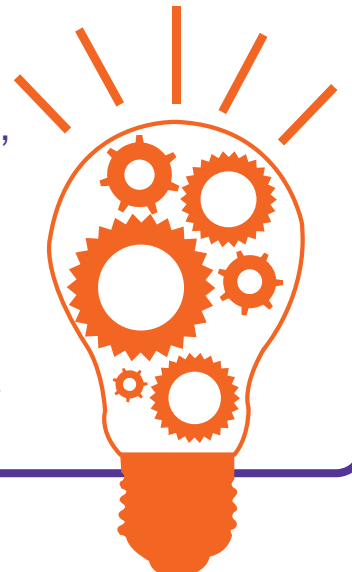

Becoming involved at the University of Arkansas.

Required Classes

As a member of the ELLC you may be in the same sections of these courses as your fellow participants in the LLC which will allow for study sessions and homework partners in your residence hall!

The Freshman Engineering Academic Program is a two-semester program designed on the basis of the common curriculum requirements of the nine, discipline-specific undergraduate programs. In order to participate in the ELLC you must be eligible and enrolled in the following coursework for the fall semester:

- GNEG 111 Introduction to Engineering I
- MATH 2554 Calculus I or MATH 1284 Precalculus
- CHEM 1113 Chemistry for Engineers I or CHEM 1103 University Chemistry
